E SOURCE "ELECTRONIC ENCYCLOPEDIA"

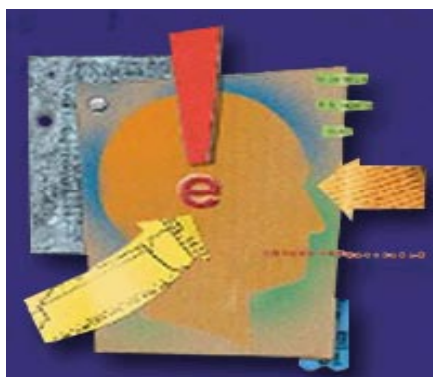

SYNOPSIS:

E SOURCE is a membership-based energy information publishing and research company that provides *independent, unbiased research and analysis* on end-use technology issues, service offerings and strategic developments in the energy services industry.

DETAILS:

HQ AFCESA has contracted with E SOURCE to provide, every six months, two CD-ROM disks to each Air Force MAJCOM and base civil engineering organization along with the licensing rights to allow everyone in those organizations to access the information on the distributed disks. One disk is for the Energy Manager and the second is for the Engineering Division/Flight. If you are not receiving your disk call the POC listed below. The knowledge contained on the CD is organized in the following categories.

Energy Intelligence

E SOURCE

-Technology Atlas Series. In-depth coverage of the primary areas of building energy use to include lighting, space cooling, space heating, drive power, and appliances.

-Tech Updates. Detailed reports on energy-efficient technology areas, including case studies and market overviews.

-Product Profiles. A review and analysis of specific energy-saving products on the market today.

-Tech Memos. Implementation and application issues related to end-use technologies.

-Strategic Issues Papers. "White papers" on strategic planning issues and market developments.

HOW TO USE E SOURCE CD-ROM DISK:

Using the install/setup commands provided by the CD, you can run and access E SOURCE in the Windows® environment with a point and shoot (mouse) application. It contains a powerful word and document search capability to locate specific articles or issues quickly. E SOURCE prints the document in a text/graphics format using Adobe Acrobat software.

WEB SITE:

In addition to the most current information on the disks, that same information and more is available on the E SOURCE web site at <http://www.esource.com>. Some information requires a password which you

can obtain by contacting the POC listed below or Mr. Rich Bauman, HQ AFCESA/CES, TRW Contract Support, DSN 523-6206, e-mail: rich.bauman@afcesa.af.mil.

Available on the web site are many of the publications on the CD, a complete listing of energy service providers, publications published after the last CD was issued, and the opportunity to sign up for the E SOURCE e-mail alert system, "listserv". This office has given E SOURCE an e-mail list for most Air Force energy managers. If you are not receiving periodic e-mails from E SOURCE, you can add your name to the data base by accessing the E SOURCE home page and inputting your own e-mail address in the "Membership Only" section.

INQUIRY AND REFERRAL SERVICE:

E SOURCE has a research staff that can quickly respond to questions about any topic covered in their reports or provide you with referrals to other resources. Use the toll free number, 1 800 ESOURCE to reach the research staff.
